**Reply-To:** [NFLSEC@yahoogroups.com](mailto:NFLSEC@yahoogroups.com)

Good afternoon NFL Section

We need as many people as you can get. Same criteria. They need to be self-sufficient for seven days (food, water, place to sleep, power, radio, etc.) HF is highly recommended, but if they are a tech or don't have a radio to deploy with, then we can work something out.

Please give them my contact information if you think you found someone that can help.

The list of locations needing to be filled continues to grow so please find as many as you can.

**Subject:** Request for operators

=====

To anyone willing to deploy to the disaster area. We have an official request for operators from the state emergency operations Center. To be deployed you must fit the following criteria.

- The 8 field operators will need to have this equipment.
- Must have been vetted (background checked) by their local county Emergency Management.
- Radio equipment for VHF/UHF (SARNET) HF (80M 40M 20M) and if possible HF winlink.
- Antennas for radios
- Alternate power (Solar, Wind, generator, etc. )
- Food and Water for 7 days
- Shelter
- Supplies to sustain themselves in case there are no other resources available
- Must be capable of deployment without any downtime for a minimum of 7 day.
- Must know message and traffic handling.

- These operators are requested to be available within the next 12 to 24 hours
- If you fit these requirements, please contact me as soon as possible thank you.
