

## NFPN Preamble

This is \_\_\_\_\_.

Does anyone need to use the frequency before I call the Northern Florida Phone Net?

I am the net control for this session of the net. My name is \_\_\_\_\_ I live in \_\_\_\_\_ in \_\_\_\_\_ County, Florida.

Today's date is \_\_\_\_\_.

The Northern Florida Phone Net is part of the National Traffic System. We handle messages as a free service to the public and for emergency preparedness training. In the event of an actual emergency, the Northern Florida Emergency Net will meet on this frequency, 3950 KHz, and will handle only emergency related Traffic in accordance with the Northern Florida Section Emergency Communications Plan.

The Northern Florida Phone Net meets daily at 1930 Eastern, 1830 Central, on or about 3950 KHz. This is a directed net - please follow the instructions of the Net Control Station. If you would like to be added to the roll call, please send a Radiogram or Email to the assistant net manager, Dave, AI4GF and your name will be added to all Net Control rosters. Your regular participation is appreciated.
