

## NFPN Preamble      SEPTEMBER 2021

This is \_\_\_\_\_.

Does anyone need to use the frequency before I call the Northern Florida Phone Net?

I am the net control for this session of the net. My name is \_\_\_\_\_ I live in \_\_\_\_\_ in \_\_\_\_\_ County, Florida. Today's date is \_\_\_\_\_.

Do we have any stations requiring an early check in for weather, another net business, or EOC stations?

The Northern Florida Phone Net is part of the National Traffic System. We handle messages as a free service to the public and for emergency preparedness training. During an activation period of the ARES emergency net, operation of this North Florida Phone net will move down to approximately 3940 Khz to handle any regular traffic.

The Northern Florida Phone Net meets daily at 7:30 Eastern, 6:30 Central, on or about 3950 KHz. Please follow the instructions of the net control station. If you would like to be added to the roll call, please send a radiogram or an email to the net manager Jim: [KF4AC@earthlink.net](mailto:KF4AC@earthlink.net) to have your call added to all net control rosters. To remain on the roster you should check in to the net at a minimum of once a month.

After we complete the roll call for West Central Florida Section, then stations anywhere in Florida may check in. Other states may check in as we call for those areas.

\* Are there any stations with priority traffic?

\* Are there any mobile stations wishing to check in?  
Are there any relays for mobile stations?

\* Are there any bulletins or announcements?

\* Do we have a QFN traffic rep?

\* We will now begin with the Northern Florida counties (see roster)
